RE: Great Lakes Asphalt Consent Decree

Dear Messrs. Plews and Racher:

I spoke to Peter Felitti, Esq., Assistant Regional Counsel for USEPA Region V, about Allied-Signal's participation in this settlement for the five entities identified on our signature sheet. He indicated that it was acceptable to him for Allied-Signal to participate on that basis and also that the volumes for those entities could be consolidated for settlement purposes. He indicated that you should call him if you have any questions about how this handled.

Since to our knowledge to volumes attributed to these entities total 19,810 gallons, I calculate our settlement amount to be \$948.10. If you have any questions or wish to discuss this further, please call me.

Sincerely,

Pamela J. Cissik
